PREMESSA

In questo fascicolo sono raffigurate ed elencate tutte le parti di ricambio essenziali o di maggior uso e consumo occorrenti in caso di riparazione o revisione alle parti MECCANICHE, ELETTRICHE e di CARROZZERIA della vettura Alfa Romeo **Alfetta**.

Ad ogni ricambio corrisponde un numero categorico che bisogna sempre rispettare in tutte le ordinazioni.

Alle parti di ricambio che nel tempo subiscono variazioni, vengono assegnati nuovi numeri categorici. In questo caso il Concessionario ALFA ROMEO, alla richiesta di una parte di ricambio che ha subito variazioni, fornisce il pezzo di nuova introduzione che annulla e sostituisce il precedente.

LE ORDINAZIONI DOVRANNO ESSERE CORREDATE DAI SEGUENTI DATI:

- Il numero di categorico del particolare richiesto (da rilevarsi sul presente fascicolo o su microfiches).
- In mancanza di precise indicazioni dell'esatto numero di categorico, è opportuno procedere ad una accurata denominazione del particolare e segnalare il tipo di veicolo ed i numeri dell'auto-telaio e del motore.
- Indirizzo esatto per la destinazione del materiale.
- Indicazione dei documenti necessari.
- Mezzo di spedizione prescelto.

INTRODUCTION

Dans ce catalogue sont illustrées et énumérées toutes les pièces détachées, essentielles ou les plus employées, nécessaires soit à la réparation soit à la révision des organes mécaniques, de l'équipement électrique et de la carrosserie de nos voitures **Alfetta**.

Chaque pièce détachée a son propre repère qui doit être toujours respecté lors de la commande.

Aux pièces détachées qui peuvent avoir-été changés entretemps, nous donnons des repères nouveaux. En ce cas le concessionnaire Alfa Romeo, au lieu de la pièce détachée commandée et qui a été changée, va vous fournir la pièce de nouvelle production qui annule et remplace la précédente.

LES COMMANDES DEVRONT ETRE FOURNIES DES DONNEES SUIVANTES:

- Le numero de reference de la pièce demandée (à relever sur le présent fascicule ou sur les microfiches).
- A défaut d'indications précises de l'exactitude de la reference il est opportun d'indiquer une dénomination très précise de la pièce, signaler le type de véhicule, les numeros du chassis et du moteur.
- Adresse exacte pour la destination du matériel.
- Indication des documents nécessaires.
- Moyen de transport choisi.
